Birthdays

Happy birthday
to all students
who celebrate
a birthday this
week

Alice Lloyd College 2017 – 2018 Calendar

August

August 21-22 (M-T) Registration for
Vacant SGA Offices

August 28-29 (M-T) SGA Election (in
DSC foyer, 11:30-1:00)

August 23 (W) ALC Last Day to Regis-
ter, Drop/Add

Dorm Room Changes

Beginning Monday morning, August 21st at 8:00 a.m., room changes are possible for new students. (These changes are one time only and free).

Also returning students will have the opportunity to change rooms for a 50.00 fee. The fee is assessed because returning students signed up for a room last spring. All room changes and requests need to begin in the Housing Director's office, DSC 200.

Crochet Group

The Crochet Group will meet on our regular schedule—7:00-8:30 (or later) in JBAC 250.

For those of you who are new to campus, this is a group that meets weekly to teach others to crochet or knit, to share patterns and tips, and just generally enjoy hanging out with others who enjoy working with yarn. No experience or supplies needed! We have supplies you can use to get started, so you don't even have to bring anything with you. We are extremely informal, and you are welcome to drop in whenever you can and stay for as long as you can.

Education Department

Announcements

TEP (Teacher Education Program) Deadlines

If you have any questions or concerns, please see Sherry Watts in the Education department.

**Campus Gas System
Public Awareness Notification
Post Date: 8-16-2017**

As a Master Meter Operator, Alice Lloyd College wants to ensure natural gas service to all consumers on campus. In doing so, we want to ensure the consumer that the pipeline system at the time of installation was in accordance with the natural gas supplier and is being maintained with the same integrity.

Being a Master Meter Operator, Alice Lloyd College wants the consumer to be informed of potential hazards and preventive measures taken by the supplier to secure the integrity of the pipeline system. Listed below are potential hazards and methods of prevention:

Potential Hazards Preventive Method

- Leaks Leakage Survey, Patrolling, Odorant Test
- Corrosion readings
- Dig In's Member of KY 811 Program

Maintenance personnel work diligently to maintain the integrity of the pipeline system. The following procedures are conducted in a timely fashion to ensure safety and security to the consumer:

1. Weekly Sniff Test and Chart Reading at Master Meter.
2. Line Patrolling.
3. Up-Keep of Gas Risers and Regulators.

Assisting Alice Lloyd College in responsibility to the consumer is Moore's Pipeline Service. Moore's Pipeline Service is owned and operated by Mr. Jack Moore. Services provided by Moore's Pipeline Service are listed as followed:

1. Annual Leakage Survey.
2. Pipeline Patrol.
3. Education and Re-Certification of Maintenance Personnel.

All records pertaining to the gas system are on file at the Office of Physical Plant including the Public Service Commission Report.

You the consumer can play a vital role in protecting our campus community. Detecting a leak and knowing what to do if a leak is suspect is at the utmost importance. When it comes to detecting a gas leak, it's best to trust your senses:

Smell: To help you smell natural gas leak, a familiar odor like rotten eggs is added to gas.

See: Near a gas leak, you might see blowing dirt, bubbling water or an unusual area containing dead vegetation.

Hear: A leaking pipeline might make a hissing sound you can hear.

If you suspect a natural gas leak, do the following:

- Walk away. Leave the area immediately. DO NOT try to find or stop the leak.
- DO NOT do anything to create a spark, like lighting a cigarette, using a cell phone, starting a car, or turning on or off lights.
- Call one of the following Alice Lloyd College personnel or 911.

Riddle Answer

A fox can only run halfway
into the woods. If it ran any
further then it would be
running *out* of the woods.
